

# Technical Rider for DJ Safri

## Rider for clubs, venues, festivals, corporate- & private parties:

A standard CDJ setup (in perfect working condition) with:

- **Soundsystem:** speakers & amplifier(s) - high quality with sufficient power & headroom.
- **DJ mixer:** Pioneer, or other professional quality: Xone, Denon or similar, with  $\leq 4$  stereo line-channels.
- **CDJ players:** 2x Pioneer CDJ-2000(Nexus/NXS2) or 900(Nexus), interconnected with LAN cable.
- **Monitor speaker(s):** one (or better: two) near the DJ setup, level adjustable from the DJ mixer.
- **Microphone:** Shure SM-58 or similar dynamic mic, connected to the DJ mixer.

The DJ setup should be on a table or stand of 90-100 cm height. All cables should be out of sight as much as possible.

Please note: DJ Safri will bring a laptop (Apple) + external controller(s).

- Free space of at least 45 x 45 cm is needed behind or next to the DJ setup.
- 2 free 230v power sockets are necessary. Cables to connect this laptop setup he'll bring himself.

Perfect setup & positioning:

Standard CDJ Setup, provided by promoter

Laptop, brought by DJ Safri

Controller(s), brought by DJ Safri

## Small parties (<80 people):

On small (non-commercial) events DJ Safri can perform with just his laptop setup and do without the CD players, DJ Mixer and in some cases even the monitor speaker. However, he always needs a proper soundsystem! When this is not available contact him well before to arrange things.

In case of questions, please contact Safri directly. Contact info below.
